Boston Ss: At a Meeting of the Selectmen March 8 [1796] Present Mess: Price, Boardman, Sever, Crafts, Edwards, Little,

Ordered, that the Opinion of the Selectmen representing the new Rope Walks of July 10. 1795 & their Letter of Septem^r. 11. be entred on the Town Books, they being omitted at the time in expectation of the matter being accommodated by a removal of the encroachment — the same as follows Viz^t —

The Selectmen being appointed a Committee to take into consideration the Article in the Warrant “ relative to the Dimensions of the Rope-Walks at the bottom of the Common directing them to settle the matter as they Judge most for the interest of the Town upon the most liberal construction of the Vote passed by the Town relative to the said Rope-Walks ”

Have taken the same into consideration, & are of Opinion that by the Report of the Committee chosen to lay out said Lands, & the general opinion of the Inhabitants [150.] as expressed in Town Meeting, that the Plat of Land for each Rope-walk should be 50. feet wide & the length as marked in the Plan — that the Stnds of each Rope Walk should not exceed 7 Feet & not more than from 14 to 18 feet wide, & that the Roofs should have been only the common pitch of Roofs made use of in Sheds or Buildings of this hight & width — that the Heads of the Walks even if built of Brick & Slated were not to be more than 20 — feet in width & the length as they should think most convenient to themselves — that there should ever have been a space of 30 feet between each Rope Walk — that the erecting of their Tar Houses should not interfere in any way so as to incumber the said Passage Way of 30 feet —

This we suppose was the general opinion of the Inhabitants at the Time the said Lands were granted — But upon viewing the Rope Walks that are now erected we find that Mr. Davis's Head is near 30 feet on the Street & in the Rear — feet — the width between the Head & Richardsons is 16 feet & between the Tarr House & Richardsons 10 feet — Mr. Richardsons Head is near 29 feet on the Street & between his head & Mr. Emmons is 10 feet & between his Tarr House & said Emmons's is 12 feet — Mr. Emmons's Head extends within 13 feet & his Tarr House within 11 feet of Mr. Neils — Mr. Codmans Head extends within 10 feet of Hows & his Tarr House within 2 feet — Mr. Hows Head is on the Sea Wall within 22 feet & his Tarr House within ten feet —

The Selectmen are therefore of Opinion that the most liberal construction consistent with the Interest of the Town, they can put on the Grants aforesaid, are — that all Incroachments actually made shall be immediately removed, such as Davis, & Richardson That all the heads of Rope Walks & Tarr Houses shall be immediately reduced or so narrowed as to leave a clear Passage Way [151.] Of 20 feet between each Rope Walk & Tarr House — that the Owners of the Rope Walks enter in Obligations to the Inhabitants binding themselves their Heirs & Assigns for ever (previous

to their receiving their Deeds) that they will never erect or suffer to be erected any Building either of Brick or Wood so as to prevent or impede a clear Passage Way of 20 feet wide, between each & every Rope-Walk — that the Rope Walks shall never hereafter be more than 20 feet wide; that the pitch of them from the 7 feet Stud, shall never be higher than is common for Sheds or other small Buildings of those Studs or dimensions — That the Roofs of the head of their Walks which now are so much higher than was expected shall be reduced as soon as possible — And that they engage in writing that they will never repair them, but let them go to decay, or in a certain given time enter into Bonds to build them with Brick & to be slated —

The following was sent to the Proprietors of the Rope Walks in Pleasant Street — viz^t

Boston Sep^r. 11. 1795 —

Gentlemen,

The Selectmen on the 14^t. of July last (agreeably to notice given you,) met with you on the ground on which you have erected Rope Walks, and after pointing out & making it appear manifest how greatly you had incroached upon the Towns Lands & exceeded the bounds of your grants from the Town, you not only appeared convinced of the incroachments but promised to remove them — And the Town having authorized us to take said Grants into consideration & put the most liberal construction thereon, we accordingly met & consulted thereon, and on said Day communicated our Opinion of which you received a Copy, but have had no answer thertoo altho' two Months have expired — Surely [152.] Gentlemen such kind of treatment could not be expected from you. But what increases our astonishment is, that additional Buildings & further incroachments have been made on said Lands since the above time — We hope this procedure was not intended as an Insult tho' it has the appearance of it —

That no further unnecessary delay may happen in this matter, we request your answer to this Paper delivered you by M^r. Walley on or before the 16^t. Day of September Ins^t. as we shall then determine on such methods to close this matter as our duty to the Town and the Interest thereof require —

We are &c

The Gentlemen Proprietors

of the accuracy of the official reports which have been published — To those who know the character & reputation of the Physicians of this Town, nothing need be said — Our Country Brethren may firmly rely on the Reports officially made through the Selectmen — notwithstanding this is their opinion, yet if possible to remove all doubts, the Selectmen in addition to the Report of the Physicians, have called for returns from the Sextons of the burials, and find that they perfectly accord with the Reports of the Physicians.
